

INTRODUCTION TO HTML PROGRAMMING FOR 6TH TO 12TH GRADES

No previous programming experience is necessary

SATURDAYS JANUARY 13, 20, & 27TH
3:00 - 5:00 PM

In the **Teen Zone**

Learn how to build professional websites and webapps using the modern technologies of HTML5, CSS and Java Script. In this workshop, you will learn the basics of general computer programming, how to design websites, the logic behind coding and design, and how this logic can be applied to website creation. We will be teaching HTML, CSS, and some basic Javascript (JS) during the sessions. Visit www.mathandcoding.org for more information about the curriculum.

Space is limited to 25 students. Participants need to bring their own laptops but may reserve a loaner in advance through mathandcoding.com. The workshop has a 3 week curriculum. Sign up only if you can attend all sessions.

*program is free, limited to grades 6-12

*to register: go to <http://bit.ly/2ftTz6H>

*Registrations begins December 11, 2017

*Thanks to the Friends of the Mountain View Library for their sponsorship of all library programs.

*Questions? Email patricia.zeider@mountainview.gov
